2. Learning of information about the partner cities: maps, flags, interesting things, capitals.
3. Production of comments at various stages of the project using the virtual noticeboard padlet.
4. Production of a collaborative text "The ideal home for Bruce".
5. Collaborative implementation of a handwritten diary that chronicles the adventures of Bruce.
6. Collaborative implementation of a story on the great adventures of Bruce using Google.doc.
7. Production of lessons where pupils teach to the bear some word phrases in their mother tongues.
8. Assessment of what students have learned from each other through quizzes and games.

### **OUTCOMES:**

We'll get a lot of stories presenting Teddy's adventures, which may be used as an authentic material for English lessons.

The public TwinSpace will be full with photos from different places in Europe.

Students will improve their English and writing skills and will be encouraged to speak English in everyday situations.

Students will have a knowledge about the countries which were visited by Teddy.
